COMMENTS ON REASONS FOR ALLOWANCE

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Applicant thanks the Examiner for the Notice of Allowability. However, Applicant respectfully notes that the Examiner's statement of reasons for allowance does not correctly characterize some of the claims. The reasons for allowance state that the prior art fails to teach or suggest:

A radio frequency cable input for receiving TDM RF signal and continuous wave (CW) signal, a tuner for processing the TDM RF signal, the tuner is capable of processing the CW signal; and wherein the NIU receives electrical power via the cable input when the tuner is processing the TDM RF signal, and receives electrical power from a different source when processing the CW signal, as indicated in independent claims 1, 17, 34, and 46.

Notice of Allowability at 3-4. However, not all of the claims recite a CW signal. For instance, independent claims 17 and 34 are not limited to receiving or processing a CW wave.

Applicant respectfully asserts that each of the claims are limited only by their own specifically-recited features. Moreover, Applicant has shown how the features set forth in each of the allowed claims distinguish over the applied art. Accordingly, Applicant asserts

that each of the claims pending in the present application are in condition for allowance and should pass to issue.

Once again, Applicant thanks the Examiner for the Notice Of Allowability and cooperation in making the Examiner's Amendment. However, should the Examiner disagree with Applicant's statement above, the Examiner is respectfully invited to reopen prosecution.

It is believed that no fees are due with this response. However, if any additional fees are due, please charge Deposit Account No. 06-2380, under Order No. 49581/P020US/09905259 from which the undersigned is authorized to draw.

Dated: December 28, 2005
